Independent Auditors' Report

Board of Directors
Southwest Delaware County Municipal Authority

We have audited the accompanying financial statements of the Southwest Delaware County Municipal Authority (the "Authority"), as of and for the year ended December 31, 2008, as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

We were unable to obtain sufficient appropriate audit evidence to satisfy ourselves regarding the accounts receivable balance as of December 31, 2008, using alternative auditing procedures. Because of the inadequacy of the accounting records, we were unable to form an opinion regarding the amount at which the accounts receivable is recorded in the accompanying balance sheet at December 31, 2008.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had the records concerning the accounts receivable been adequate, the financial statements referred to in the first paragraph present fairly, in all material aspects, the financial position of the Southwest Delaware County Municipal Authority as of December 31, 2008, and the results of its operations and cash flows for the year ended, in conformity with accounting principles generally accepted in the United States of America.

SOUTHWEST DELAWARE COUNTY MUNICIPAL AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
DECEMBER 31, 2008

This section presents management's discussion of the financial condition and operating performance of the Southwest Delaware County Municipal Authority over the course of Fiscal Year 2008 and comparison to fiscal year 2007. Please read this analysis in conjunction with the Authority's financial statements included with this document.

SUMMARY OF THE ORGANIZATION:

The Authority is a municipal corporation created by Aston Township under the Pennsylvania Municipal Authorities Act of 1945, as amended, (Act) for the purpose of financing, engineering, and constructing the public sanitary sewer system.

The Aston Township commissioners appoint a seven member Board of Directors to staggered five year terms. The Authority hires its own employees and professional advisors.

The Authority is an operating authority under the Act. The Authority owns and maintains the treatment works, and collection system within its service area. The Authority through contractual and inter-municipal agreements acts as the treating agency for several bordering municipalities.

The Authority owns and maintains a treatment and collection system that consists of over 63 miles of collection system piping and a 6.0 million gallon design capacity treatment plant.

The Authority has no taxing power under the Act, but relies on sewer rental rates and charges imposed under the Act. Tapping fees, connection fees, and other service charges may be assessed for connections to the system. These fees are not generally included in budget forecasts until developers agreement has been executed with the Authority.

FINANCIAL AND ADMINISTRATIVE COMMENTS:

The Authority in fiscal year 2004 changed its customer billing format from a standard flat charge per equivalent dwelling unit to a usage rate based upon two components. The new rate structure was designed to enhance the revenue of the Authority to meet operational expenses and to reflect charges based on system utilization. The base charge or flat rate is assessed to each customer that maintains a connection to the system. The second portion of the rate is based on water usage as reported by the supplier of the potable water.

The financial statements adequately reflect the Authority's financial position at the end of fiscal year 2007.

The Authority meets all terms of the trust agreement and other borrowings and the change in the amount owed (a reduction of \$940,301 total debt) is a direct result of scheduled payments and refinancing.

Fiscal Year	Bonds Payable	Notes Payable	Total Debt
2008	\$12,740,000	\$ 4,362,029	\$17,102,029
2007	\$13,235,000	\$ 4,807,330	\$18,042,330

A summarized comparison of the Authority's statements of revenues, expenses and changes in net assets for the years 2008, 2007 follows:

Operational expenses were 9% less than budget estimates. Revenue was 1% greater than the budget estimate.

The following table compares fiscal year 2008 operations to fiscal year 2007 and reflects an improved financial condition. The Authority realized a reduction in operating expenses and an increase in operating income. The change in net income is a result of improved collection of the billed revenue.

SOUTHWEST DELAWARE COUNTY MUNICIPAL AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
DECEMBER 31, 2008

The decrease in operational expense is a result of improved operations and was achieved despite increases in labor; sludge handling and employee benefit costs. Some of the decrease can also be attributed to the normal purchasing cycle and a further reduction in contracted service costs.

Statement of Revenues, Expenses and Changes in Net Assets

	2008	2007
REVENUES		
Operating Revenues	\$ 5,464,212	\$ 5,632,300
Operating Expenses	4,786,411	4,588,787
Operating Income	677,801	773,513
Net Loss	(222,529)	(215,512)
Other Income	-	-
Increase (Decrease) in Net Assets	(222,529)	558,001

Prior Period Adjustments	-	357,137
Net Assets at end of the year	3,683,823	3,906,352

The assets of the Authority exceeded its liabilities by \$3.7 million. \$2.1 million of the assets were restricted by legal requirements and were not available to finance the day to day operations of the Authority. Unrestricted assets were \$4.0 million.

The largest asset increase was in accounts receivable. Implementation of the billing rate caused many questions from the customer base and the implementation of different policies as the Authority was made aware of problems and concerns of its customers concerning the rate change. This resulted in a less than normal collection rate.

The Authority's Outstanding Debt as of December 31, 2008 is as follows:

Notes Payable	\$ 4,362,029

Economic Factors and Next Year's Budgets and Rates

Southwest Delaware County Municipal Authority is continuing its efforts to improve its financial position, by increasing its revenues and containing its expenses. The Authority is focusing on reducing outstanding delinquencies, especially with rental properties, which comprise an above average percentage of the customer base. The Authority is utilizing all legal methods to improve its collection rate. The Authority is confident that its focused collection effort will provide sufficient revenues to enable it to satisfy its financial obligations although it recognizes that the current economic climate may impact the ability of customers to pay their sewer bills. As for expenses, the Authority has taken steps to reduce all expenses and closely monitors disbursements for sewer operations. The 2009 budget is essentially the same as the 2008 budget, after adjusting for certain revenue neutral expenses. Finally, the Authority has issued \$15,660,000 Guaranteed Sewer Revenue bonds Series A and B of 2009 and in the process refunded the Sewer Revenue bonds of 1998, two outstanding PennVest Loans and the Series 2008 Note issued to TD Bank. The Authority recognizes that the current economic climate may adversely impact its customers but it believes that the programs it has enacted will enable it to sustain its financial goals and objectives.

SOUTHWEST DELAWARE COUNTY MUNICIPAL AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2008

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Southwest Delaware County Municipal Authority (the "Authority") is a body corporate and politic, organized and existing under the laws of the Commonwealth of Pennsylvania. It was incorporated on December 16, 1957 under the Municipal Authorities Act of 1945, being the Act of May 2, 1945, P.L. 382 as amended, pursuant to an ordinance duly enacted by the Board of Commissioners of the Township of Aston, to improve, maintain, operate, own, lease either in the capacity of lessee or lesser, sewer, sewer systems or parts thereof and sewage treatment works for treating and disposing of industrial waste in and for the Township of Aston and for such territory as it may be authorized to serve.

The financial statements of the Authority have been prepared in conformity with generally accepted accounting principals as applied to governmental units. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the Authority are described as follows:

A. Reporting Entity

The Authority has adopted the provisions of Section 2100 of the Codification of Governmental Accounting and Financial Reporting Standards for the criteria used to evaluate the organizations, activities and functions that should be included in the Authority's financial statements. The basic criteria are the exercise of oversight responsibility over such organizations, activities, and functions.

The Authority has not identified any entities which should be subject to evaluation for inclusion in the Authority's reporting entity.

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The Authority's financial statements are prepared on the full accrual basis of accounting in accordance with accounting principals generally accepted in the United States of America. Under this basis of accounting, revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. The Authority applies Governmental Accounting Standards Board (GASB) pronouncements as well as Financial Accounting Standards Board (FASB) statements and interpretations, and the Accounting Principal Board (APB) of the Committee of Accounting Procedures issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

All activities of the Authority are accounted for within a proprietary (enterprise) fund. Proprietary funds are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primary through user charges; or where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The accounting and financial reporting treatment applied to the Authority is determined by its measurement focus. The transactions of the Authority are accounted for on a flow of economic resources measurement focus. The transactions of the Authority are accounted for on a flow of economic resources measurement focus. The transactions of the Authority are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations are included on the balance sheet. Net assets (i.e., total assets net of total liabilities) are segregated into: "invested in capital assets, net of related debt"; "restricted for debt service"; and "unrestricted" components,

The Authority distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the Authority's ongoing operations. The principal operating revenues of the Authority are charges to customers for sales and services. Operating expenses not meeting this definition are reported as nonoperating revenues and expenses.

When an expense is incurred for purposes for which there are both restricted and unrestricted net assets available, it is the Authority's policy to apply those expenses to restricted net assets to the extent that such are available and then to unrestricted net assets.

C. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Authority considers all unrestricted securities with an original maturity of three months or less to be cash equivalents.

D. Sewer Rentals Receivable

The Authority provides continuous services to its customers. Except for residents of Upper Chichester Township, Middletown Township and Upper Providence Township, billings are provided to customers on a yearly basis for the yearly calendar period immediately preceding the date of the bill. Discounts are applied to payments made within thirty (30) days of the invoice date.

The Authority bills the sewer authorities of Upper Chichester Township, Middletown Township and Upper Providence Township on a semi-annual basis on the first day of January and July of each year for the semi-annual calendar period immediately preceding the date of the bill.

The Authority recognizes uncollectible accounts at the time they are deemed to be uncollectible. The Authority is performing collection efforts and is in the process of filing liens on properties with delinquent amounts. These efforts should result in the collection of substantially all accounts receivable.

NOTE 5: DEFERRED BOND COSTS

As required by GASB Statement No. 23 for proprietary funds, the Authority is required to defer the difference between the net carrying amount of the defeased debt and the reacquisition price of the new debt. The deferred amount is being amortized as an element of interest expense on a straight-line basis over the life of the refunding debt. For the year ended December 31, 2008 the amount charged to expense was \$129,444.

NOTE 6: ACCRUED LIABILITY

The Authority is involved in certain claims and legal actions, which arise during the ordinary course of business. A claim has been made against the Authority by the Pennsylvania Department of Environmental Protection ("PADEP") for unresolved violations, which occurred between 2005 and 2008.

In early 2009 a "Consent Order and Agreement" was executed from PADEP, specifying a final civil penalty of \$38,000 along with certain corrective actions in the operation and maintenance of the plant for these violations. The fine, included in expenses in these financial statements was paid in March 2009

NOTE 8: BONDS PAYABLE

The Authority issued Guaranteed Sewer Revenue Bonds, Series of 1998 (the "1998 Bonds"), dated July 15, 1998, in the amount of \$14,960,000. The 1998 Bond proceeds financed the advance refunding of the outstanding Series of 1992 and 1994 Bonds.

During 2002 and 2003 the Authority was found to be out of compliance with the United States Environmental Protection Agency (the "EPA") regulations for discharge into Chester Creek. On September 30, 2003, the EPA submitted a "finding of violation and order for compliance" to the Authority and has not imposed a fine, but has reserved the right to do so. The Authority's management has corrected the issues and the Authority is now in compliance.

In March 2007, the Pennsylvania Department of Environmental Protection ("PA DEP") requested a Corrective Action Plan (CAP) with respect to surcharges at the Kingsmill site located on Route 452 Aston, Pennsylvania. The Authority complied with the request and submitted the CAP to the PA DEP. This process will take approximately 6 to 12 more months to complete. The outcome of the claim cannot be determined at this time.

The Authority is currently participating in EPA hearings dealing with Authority discharge into the Chester Creek Watershed. The EPA is currently in the "information gathering stage".

NOTE 12: SUBSEQUENT EVENTS (CONTINUED)

Under the terms of a Trust Indenture, the Authority pledges and assigns all of the receipts and revenues from the Sewer System as security for its obligation to make payments under the Indenture.

In connection with the issuance of the 2009 Bonds, the Township of Aston (the Township) agreed to provide to the Trustee a Guaranty Agreement, the terms of which provided for, among other things, an unconditional guaranty by the Township of the payment of principal, interest, and insufficiencies of the debt service reserve fund related to the Bonds.

The Authority has evaluated all subsequent events through the report issue date of November 6, 2009. No events have taken place that effect the financial statements or require disclosure.
